

The screenshot shows a Microsoft Visual Studio Code (VS Code) interface with the following details:

- EXPLORER**: Shows the project structure under "GEMINI-API-DEMO-MAIN".
- CODE EDITOR**: Displays the file "app\_gemini\_ej3.py". The code imports os, google.genai, dotenv, and types. It loads environment variables, initializes a client, and defines a function "chat\_soporte" which prints "Bienvenido al Chat de Soporte de la Tienda de Tecnología".
- TERMINAL**: Shows the command "python .\app\_gemini\_ej3.py" being run in a terminal window titled "python3.12". The output includes a series of "KeyboardInterrupt" messages and the welcome message.
- SIDE BAR**: An "AI" sidebar on the right contains a "Build with Agent" section with a message about AI responses being inaccurate and instructions to onboard AI onto the codebase. It also has a "SUGGESTED ACTIONS" section with options like "Build Workspace" and "Show Config".
